

FOTOMATE

Digital Photo Frame

User Manual

FM 200 8inch - Black

Cautions

Precautions and maintenance

- For indoor use only
- To avoid risk of fire or electric shock, do not expose the unit to moisture or condensation.
- To avoid overheating, do not block the ventilation holes on the back of the Digital Photo Frame.
- Keep the Digital Photo Frame out of direct sunlight.
- Do not dismantle the Digital Photo Frame. There is a risk of electric shock and there are no user-serviceable parts inside. Dismantling the Digital Photo Frame will void your warranty.

Cleaning the LCD Screen

- Treat the screen carefully. Because the screen of the Digital Photo Frame is made of glass and it would easily be broken or scratched.
- If fingerprints or dust accumulate on the LCD screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth to clean the LCD screen.
- Moisten the cleaning cloth with the cleaning solution and apply the cloth to the screen.

WARNING:

Please power off the unit before inserting or removing a card or USB device.

Failure to do so may cause damage to the card/USB and the unit.

To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

2. Installing & Replacing the Battery

Place the upside of the remote control down, press down on the ridged area of the battery cover and pull towards you to remove the tray. Place one CR2025 lithium button-cell battery on the tray with the positive “+” side facing you. Reinsert the tray.

3. Getting Started

- 3.1 Extend the digital photo frame bracket on the back of the frame to the widest position for greatest stability, and then plug one end of the included AC adapter into a standard 110-240V AC electrical outlet and the other end into the right side the frame.
- 3.2. Remove the protective film covering the LCD.
- 3.3. Remove the plastic battery insulator from the battery compartment and make sure the remote control has a battery inside. Please refer to "Installing & Replacing Battery" if you need a new battery.
- 3.4. Power on the unit by pressing the Power button on the remote control or on the top of the unit.

4. Built-in Battery

When you plug on the adapter, the battery will be recharging. It will show the recharging battery icon in the right corner. It will take 3hours for full battery charging. The working time of the built-in battery is about 3-5hours.

5. Operating Instruction

8 . Troubleshooting Guide

If you are having problems with your player, please consult both this guide and manual. If you need further assistance, please contact Technical Support.

- No power:
Please check whether the plug is inserted correctly.
- Remote control no function:
Please check whether the battery has power (the battery can be used for half a year in normal conditions). Replace with new battery if necessary.
- Can not read the CARD or USB:
Please confirm whether there is storage in the card or USB device.
Empty devices cannot be read.
- Can not play the file:
Please confirm if the file format is compatible with the player.
- Display too bright or too dark:
Please adjust the brightness or contrast in the setup menu.
- The color is light or no color:
Please adjust the color and contrast setup.
- No sound:
Please check whether the volume is correct and the player is not in Mute mode.
